Dear Graeme:

**Port Coquitlam, B.C.**

We would like to take this opportunity to compliment you and your team from HouseSmart on the excellent work done for us during the renovation of our home at ██████████  
██████████

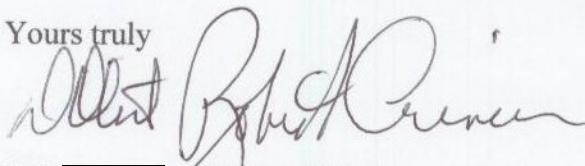

Your group made the time and effort to understand our vision, then offered appropriate design options for us to consider. The work was done in a timely manner, despite the numerous changes that we requested as the work progressed.

Everyone from the designers Jeff Rebiffe and Linda Jones, site foreman Piers Wylie down to the electrician, tile setter, painter etc. were exceptional. In particular we found Piers to be very patient and an excellent communicator with us and his coworkers.

Now that we have had six months of living experience in our renovated home, we have found the design layout to be very practical and exceed our expectation. The overall quality of workmanship and materials captivates the attention of our guests.

We will continue to recommend your firm without hesitation.

Yours truly

Bob ██████████ and Dawn ██████████
